

Next generation equipment care **TotalCareSM Services**

LONG-TERM CARE OF YOUR EQUIPMENT TO MAXIMIZE OPERATIONAL PERFORMANCE AND MINIMISE COSTS

Timely and proper maintenance is of vital importance during the total lifespan of equipment. As an Original Equipment Manufacturer (OEM) of lifting equipment, KenzFigeo offers this service with the benefits of providing clients the technical knowledge and expertise.

At KenzFigeo, we are recognized for the robustness and long lifetime of our lifting and offshore equipment. Our dedication to excellence is not limited to engineering and construction of our products, but also extends to long term care of manufactured equipment or mechanical offshore tools of any brand.

With the introduction of the **TotalCareSM** package of services, KenzFigeo has the competency and technology to help you to maximise operational performance, minimise unscheduled operational downtime, save costs and improve safety of your equipment.

The KenzFigeo **TotalCareSM** service package ensures our commitment of taking total care of your equipment and eliminating maintenance concerns during its operational lifetime.

WE CARE ABOUT YOUR EQUIPMENT LIKE IT WAS OUR OWN!

OUR SERVICES

With a full range of services, we deliver improved lifetime expectancy of your lifting equipment and offshore tools. KenzFiguee's OEM services have been expanded beyond its own delivered equipment and are also offered for equipment from almost any manufacturer based on usage, operating environment, duty classification, OEM recommendations and local regulations.

We provide qualified crane operator technicians with a broad crane knowledge, whilst our specialist service engineers are multi-skilled trained in electrical, PLC, mechanical, hydraulic disciplines and practical educated in the KenzFiguee manufacturing process.

THE BENEFITS OF KENZFIGEE *TotalCare*SM SERVICES

Choosing KenzFiguee's *TotalCare*SM service package provides you the benefit of a variety of our competencies:

- Technical assurance and skills of an OEM offshore equipment designer and manufacturer
- Condition-Based Monitoring (CBM) data analytics & reporting (preventive maintenance)
- Qualified multi-skilled service engineers resulting in POB reduction for PMR's and call outs
- Spare parts optimisation and stock holding management
- Planned maintenance routines for a longer equipment lifetime
- Knowledge and expertise of in-house engineering support
- Preferential rates on emergency repair intervention and projects

WHY SELECT KENZFIGEE'S *TotalCare*SM SERVICE PACKAGE?

Choosing KenzFiguee's *TotalCare*SM service package will not only provide you the advantage of operating your equipment without any concern, but more important reducing operational and ownership costs based on the benefits of being an OEM manufacturer, like:

- Decrease of total maintenance time and costs
- Eliminating unnecessary maintenance
- Minimize unscheduled operational downtime
- Reducing POB or service team
- Ability to instantly source and supply original spare parts, including management
- Reduction of operational costs and improvement of safety
- Providing ease of operation and continuity
- Lower costs for modifications, overhauls, upgrades, etc.
- Reduction of project risks

*TotalCare*SM commitment and assurance:

- *Efficient services & preventative measures*
- *Services by competent and qualified personnel*
- *Verified scope and safely planned*
- *Transparency and compliance*
- *Maximisation of operational availability*
